School Catastrophic Accident Insurance

Today, a well-rounded education involves experiences which occur outside of the normal school day, and sometimes even far from the school campus. Student travel to athletic events, museums and other cultural sites is not unusual.

School-sponsored, extra-curricular activities serve to enhance a student's academic experience. During the summer months and after school, work-study programs and clinics have become increasingly popular. In all cases, accidents and injuries can occur.

The School Catastrophic Accident Insurance Program is designed to provide accident insurance for students injured in those school sponsored activities.

Eligibility

All registered students of the Policyholder (the participating school/school district).

Covered Activities

Covered Activities include while participating in Covered Events and during Covered Travel. Covered Travel means travel directly to or from a Covered Event, which has been authorized by the Policyholder.

- School sponsored camps
- Summer clinic
- Open gym
- Field trips
- School dances
- Special events
- Other normal school activities

Covered Events do not include any activity or event covered under any state athletic association or activities association policies.
